

Morini Luca curriculum vitae

Work experience

11/2020→

Director of the School of Specialization in Legal Medicine, University of Pavia

(Direttore della Scuola di Specializzazione in Medicina Legale)

11/2019→

Associate Professor, Department of Public Health, Experimental and Forensic Medicine, Legal Medicine and Forensic Science Unit, University of Pavia

(Professore Associato nell'Area 06/M2, per il SDD Med/43, Medicina Legale)

11/2016→11/2019

Assistant Professor (three-year contract), Department of Public Health, Experimental and Forensic Medicine, Legal Medicine and Forensic Science Unit, University of Pavia

(Ricercatore a tempo determinato di tipo B)

10/2015-11/2016

Assistant Professor (two-year contract), Department of Public Health, Experimental and Forensic Medicine, Legal Medicine and Forensic Science Unit, University of Pavia

(Ricercatore a tempo determinato di tipo A, proroga di due anni – RTD A)

10/2012-09/2015

Assistant Professor (three-year contract), Department of Public Health, Neuroscience, Experimental and Forensic Medicine, Legal Medicine and Forensic Science Unit, University of Pavia

(Ricercatore a tempo determinato di tipo A – RTD A)

08/2004-09/2012

Scholarship employer/Ph.D student/Post-doc fellow, Department of Public Health, Neuroscience, Experimental and Forensic Medicine, Legal Medicine and Forensic Science Unit, University of Pavia

05/2004-08/2004

Employer at Analytica S.R.L.(Prof. Baldi), Corteolona (PV, Italy)

Education and Training

02/2014

Received the National Italian Habilitation for Associate Professor Position (Abilitazione nazionale per professore di seconda fascia)

01/2006-04/2009

Ph.D. in Biomedical and Translational Science at the University of Verona, Italy (winner of scholarship). Title of the Thesis: "Development and validation of analytical methods for the determination of direct ethanol metabolites in biological matrices by liquid chromatography tandem mass spectrometry. Applications in forensic toxicology".

02/2007-06/2007

Stage at National Institute of Health, Oslo, Norway

03/2005

Mass spectrometry school of Specialization-University of Siena (Pontignano, Italy).

1997-2003

Bachelor and Master Degree in Chemistry, University of Pavia, Italy. vote 101/110.

Title of the Thesis: "Composti organici e inorganici dell'arsenico in campioni biologici, mediante HPLC-ICP-MS".

Tutor: Prof. A. Profumo

1992-1997

Secondary High School, Scientific Diploma, Liceo Scientifico Golgi, Broni, PV, Italy. Vote 48/60

Personal Skills and Competences

My main research interests are in the development and validation of LC-MS/MS procedures for the determination of xenobiotics in biological matrices, as well as the evaluation of different ethanol direct metabolites, as potential markers in alcohol acute and chronic abuse diagnosis. In particular I extensively studied ethyl glucuronide in hair as a potential marker for chronic excessive alcohol consumption, as well in meconium as marker of fetal alcohol exposure. I'm author/coauthor of more than 40 scientific articles. Recently, I developed and validated several methods for the detection and quantification of psychoactive substances on Dried Blood Spots (DBS). Moreover, I extensively studied the evaluation of New Psychoactive Substances (NPS) in biological matrices, such as blood, urine and hair samples. I presented more than 70 works among oral presentations and posters during national as well as international meetings, workshops, conferences in three different languages (English, Spanish and Italian). I'm an active member of national (Italian Group of Forensic Toxicologists "GTFI", Italian Society of Biochemistry "SiBioc", Italian Society of Legal Medicine "SIMLA") as well as international (The International Association of Forensic Toxicologists "TIAFT", Society of Hair Testing "SoHT") associations involved in forensic toxicology and legal medicine. I'm a former coordinator of the Young Scientist Group of Italian Forensic Toxicologists, and former member of the Young Scientists Committee of TIAFT. During the development of research projects, I partnered many national as well as international institutes, such as the Italian Institute of Public Health (ISS), the Norwegian Institute of Public Health (FSI), Legal Medicine Department of University of Murcia, Hospital del Mar in Barcelona, University of Firenze, several Italian Hospitals (Verona, Roma, San Daniele, Reggio Emilia, Crotone, Firenze), as well as private companies (Immunoanalysis, USA). My group received six awards (two international and four national) that assessed the quality of research.

Number of Publications: 75

Number of peer-reviewed publications on Scopus: 72

H Index on Scopus (updated at mar 2022): 25

Number of Citations on Scopus (updated at mar 2022): 1582

Softwares routinely used: Office (word, power point, excel), Analyst, ChemStation, MassHunter, Chrome, Firefox,

- Winner of the national Grant “BlueSky Research” in 2017. Title of the project:
- Dried Blood Spots (DBS) as new routine sample collection for identification and quantification of psychoactive substances in postmortem blood
- Winner of the Achievement Award during the “The International Association of Forensic Toxicologists” annual meeting in Birmingham in Sept 2020
- Member and Coordinator of the Committee for the Research and the Third Mission of the Department of Public Health, Experimental and Forensic Medicine, University of Pavia
- Member of the Scientific Committee of the Centro Grandi Strumenti of the University of Pavia
- Representative for the Department of Public Health of the University of Pavia for the Interdepartmental Centre ECLT (European Centre for Law, Science and New Technologies)
- Representative for the Department of Public Health of the University of Pavia for the Interdepartmental Centre CISRIC (Centro Interdipartimentale di Studi e Ricerche per la Conservazione del Patrimonio Culturale dell’Università di Pavia)
- Representative for the Department of Public Health of the University of Pavia for the Interdepartmental Centre TAMERICI (Tecnologie Applicate alla Medicina Rigenerativa ed alla Chirurgia Induttiva)

Other competences

- Member of the Young Scientist Committee of TIAFT (The International Association of Forensic Toxicologists) period 2013-2019
- Active member of The International Association of Forensic Toxicologists (TIAFT)
- Active member of The European Work Drug Testing Society (EWDTS)
- Coordinator of the Young Scientist Unit of the Italian Group of Forensic Toxicologists (GTFI) in the period 2009-2018
- Webmaster of the Italian Group of Forensic Toxicologists (GTFI) website
- Active member of the Italian Society of Biochemical Chemistry (SiBioc)
- Active member of the Society of Hair Testing (SoHT)
- Member of the Expert Group on alcohol biomarkers of the SoHT
- Member of the Editorial Board of:
 - Current pharmaceutical Biotechnology
- Reviewer for:
 - Forensic Science International,
 - Analytical and Bioanalytical Chemistry,
 - Alcohol and Alcoholism,
 - Drug and Testing Analysis,
 - Journal of Pharmaceutical and Biomedical Analysis,
 - Bioanalysis,
 - International Journal of Environmental Analytical Chemistry,
 - Journal of Forensic Science and Medicine,

- Toxicology Reports, Separations,
- Journal of Analytical Toxicology,
- Molecules

Courses and Lessons delivered

2007/2008

Biomedical lab technician bachelor – Course of forensic toxicological chemistry – 4 hours

School of specialization in Legal Medicine - Course of Forensic Toxicology – 4 hours

School of specialization of Clinical Biochemistry – Course of Chemical Toxicological Analysis – 4 hours

2008/2009

School of specialization in Legal Medicine - Course of Forensic Toxicology – 4 hours

Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 4 hours

School of specialization of Clinical Biochemistry – Course of Chemical Toxicological Analysis – 4

2009/2010

School of specialization in Legal Medicine - Course of Forensic Toxicology – 4 hours

Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 4 hours

School of specialization of Clinical Biochemistry – Course of Chemical Toxicological Analysis – 4 hours

Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 4 hours

2010/2011

School of specialization in Legal Medicine - Course of Forensic Toxicology – 4 hours

Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 4 hours

School of specialization of Clinical Biochemistry – Course of Course of Chemical Toxicological Analysis – 4 hours

Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 4 hours

2011/2012

School of specialization in Legal Medicine - Course of Forensic Toxicology – 4 hours

Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 4 hours

Forensic Science First Level Master degree – Course of Forensic Toxicology – 2 hours

Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 4 hours

2012/2013

School of specialization in Legal Medicine - Course of Forensic Toxicology – 8 hours

Biomedical lab technician bachelor – Course of forensic toxicological chemistry – 4 hours

Forensic Science First Level Master degree – Course of Forensic Toxicology – 4 hours

Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 4 hours

2013-2014

School of specialization in Legal Medicine - Course of Forensic Toxicology – 8 hours

Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 4 hours

Forensic Science First Level Master degree – Course of Forensic Toxicology – 4 hours

Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 4 hours

2013-2014

School of specialization in Legal Medicine - Course of Forensic Toxicology – 8 hours

Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 4 hours

Forensic Science First Level Master degree – Course of Forensic Toxicology – 4 hours

Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 4 hours

2014-2015

School of specialization in Legal Medicine - Course of Forensic Toxicology – 8 hours

Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 4 hours

Forensic Science First Level Master degree – Course of Forensic Toxicology – 4 hours

Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 4 hours

Occupational medicine first level Master degree – course of Legal Medicine – 8 hours

2015-2016

School of specialization in Legal Medicine - Course of Forensic Toxicology – 8 hours

Forensic Science First Level Master degree – Course of Forensic Toxicology – 4 hours

Occupational medicine first level Master degree – Course of Legal Medicine – 12 hours

Occupational Therapy and Physiotherapy – Course of Legal Medicine – 8 hours

2016-2017

School of specialization in Legal Medicine - Course of Forensic Toxicology – 8 hours

Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 4 hours

Forensic Science First Level Master degree – Course of Forensic Toxicology – 2 hours

Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 4 hours

Occupational medicine first level Master degree – course of Legal Medicine – 12 hours

Occupational Therapy – Course of Legal Medicine – 8 hours

Physiotherapy – Course of Legal Medicine – 8 hours

Orthoptics – Course of Legal Medicine – 16 hours

Medicine and Surgery – Course of Legal Medicine in English (Corso Harvey) – 15 hours

2017-2018

School of specialization in Legal Medicine - Course of Forensic Toxicology – 8 hours
Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 4 hours
Forensic Science First Level Master degree – Course of Forensic Toxicology – 2 hours
Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 4 hours
Occupational medicine first level Master degree – course of Legal Medicine – 12 hours
Occupational Therapy – Course of Legal Medicine – 8 hours
Physiotherapy – Course of Legal Medicine – 8 hours
Orthoptics – Course of Legal Medicine – 16 hours
Psychosocial/Psychiatric Rehabilitation Education – Course of Legal Medicine – 8 hours
Nursing school – Course of Legal Medicine – 30 hours
Medicine and Surgery – Course of Legal Medicine in English (Corso Harvey) – 15 hours

2018-2019

School of specialization in Legal Medicine - Course of Forensic Toxicology – 16 hours
Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 4 hours
Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 4 hours
Occupational medicine first level Master degree – course of Legal Medicine – 12 hours
Occupational Therapy – Course of Legal Medicine – 8 hours
Physiotherapy – Course of Legal Medicine – 8 hours
Psychosocial/Psychiatric Rehabilitation Education – Course of Legal Medicine – 8 hours
Nursing school – Course of Legal Medicine – 30 hours
Medicine and Surgery – Course of Legal Medicine in English (Corso Harvey) – 15 hours

2019-2020

School of specialization in Legal Medicine - Course of Forensic Toxicology – 16 hours
Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 4 hours
Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 24 hours
Occupational medicine first level Master degree – course of Legal Medicine – 12 hours
Occupational Therapy – Course of Legal Medicine – 8 hours
Physiotherapy – Course of Legal Medicine – 8 hours
Psychosocial/Psychiatric Rehabilitation Education – Course of Legal Medicine – 8 hours
Nursing school – Course of Legal Medicine – 30 hours
Medicine and Surgery – Course of Legal Medicine in Italian (Corso Golgi) – 8 hours

Medicine and Surgery – Course of Legal Medicine in English (Corso Harvey) – 15 hours

2020-2021

School of specialization in Legal Medicine - Course of Forensic Toxicology – 48 hours

Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 8 hours

Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 24 hours

Occupational medicine first level Master degree – course of Legal Medicine – 12 hours

Occupational Therapy – Course of Legal Medicine – 8 hours

Physiotherapy – Course of Legal Medicine – 8 hours

Psychosocial/Psychiatric Rehabilitation Education – Course of Legal Medicine – 16 hours

Environment and workplace prevention techniques bachelor – Course of Forensic Toxicology – 16 hours

Nursing school – Course of Legal Medicine – 30 hours

Medicine and Surgery – Course of Legal Medicine in Italian (Corso Golgi) – 8 hours

Medicine and Surgery – Course of Legal Medicine in English (Corso Harvey) – 32 hours

Master degree in Pharmaceutical Chemistry and Technology – Course of Analytical Methods in Forensic Toxicology – 24 hours

Master degree in Experimental and Applied Biology – Course of Forensic Methodologies – 24 hours

2021-2022

School of specialization in Legal Medicine - Course of Forensic Toxicology and Legal Medicine – 148 hours

Biomedical lab technician bachelor – Course of Forensic Toxicological Chemistry – 8 hours

Master degree in medical and pharmaceutical biotechnology – Course of Legal Medicine- 24 hours

Occupational medicine first level Master degree – course of Legal Medicine – 12 hours

Occupational Therapy – Course of Legal Medicine – 8 hours

Physiotherapy – Course of Legal Medicine – 8 hours

Psychosocial/Psychiatric Rehabilitation Education – Course of Legal Medicine – 16 hours

Environment and workplace prevention techniques bachelor – Course of Forensic Toxicology – 16 hours

Nursing school – Course of Legal Medicine – 30 hours

Medicine and Surgery – Course of Legal Medicine in Italian (Corso Golgi) – 8 hours

Medicine and Surgery – Course of Legal Medicine in English (Corso Harvey) – 32 hours

Master degree in Pharmaceutical Chemistry and Technology – Course of Analytical Methods in Forensic Toxicology – 24 hours

Master degree in Experimental and Applied Biology – Course of Forensic Methodologies – 24 hours
